presents...

FLAT WATER SAFETY & RESCUE TRAINING!

Spend the day at Sproat Lake learning awesome new skills!

**Free for
Nuu-chah
-nulth
members!**

**Training Date:
August 26th, 2020**

**Time: 9am-5pm
10 Spots only!**

This 1 day course will improve your water confidence and help keep you safer around the water.

This course is designed for people who want to work near, in and on non-moving water including lakes and ponds, or very slow moving water including flood or tidal waters. This course identifies the hazards that are associated with flat water, and details the safe work procedures and equipment that can be used to reduce the risks.

Participants learn self rescue skills, shore-based rescue “reach” and “throw” techniques for the rescue of others, using both standard and improvised rescue equipment.

- Dry suits provided
- Lunch provided
- Social distancing guidelines observed
