

Official Community Plan + Housing Needs Report

Uchucklesaht Tribe Government is kicking off these two important community initiatives, and citizen participation is critical to the success of the projects.

WE NEED YOUR INPUT!

Official Community Plan (“OCP”) - Provides objectives and comprehensive policies to guide decisions about planning and land use management on Uchucklesaht Lands - including housing and residential growth, environmental protection, transportation, and community design.

Housing Needs Report - Provides a clear picture of current housing conditions and future housing needs for Uchucklesaht citizens, particularly within the Alberni Valley and on Uchucklesaht Lands.

The first round of citizen engagement starts in April 2021 with a community meeting and two surveys.
